

Lesson Summary

When dividing a fraction by a fraction with the same denominator, we can use the general rule $\frac{a}{c} \div \frac{b}{c} = \frac{a}{b}$.

Problem Set

For the following exercises, rewrite the division problem in words. Then, be sure to draw a model to support your answer.

1. $\frac{15}{4} \div \frac{3}{4}$

2. $\frac{8}{5} \div \frac{3}{5}$
